

Indian Institute of Technology Indore
AgriConnect: Building Bridges between FPOs, NGOs
and Agri Stakeholders
A Two days Workshop on
15-16 September, 2025 at IIT Indore

ABOUT US

The 'AgriHub' is a transdisciplinary, multi-institutional collaborative Centre of Excellence (CoE) that brings stakeholders together to reduce the time taken to innovate, develop and deploy technologies for the benefit of breeders, researchers and farmers with an aim to provide advanced technologies such as high-performance computing and big data analytics for designing crops and implementing AI/ML platforms.

ABOUT WORKSHOP

AgriHub is organizing a two-day workshop bringing together Farmer Producer Organizations (FPOs) and Non-Governmental Organizations (NGOs) to foster dialogue, collaboration, and innovation in Indian agriculture and to make them familiar with various ongoing Deep AgriTech projects at AgriHub. The workshop will serve as a platform to exchange knowledge, share best practices, and explore opportunities for collective growth. Through interactive sessions, panel discussions, and capacity-building activities, the program aims to strengthen grassroots institutions, enhance market linkages, and promote sustainable farming practices. By uniting diverse stakeholders under one roof, the workshop seeks to co-create impactful solutions that empower farmers, improve livelihoods, and contribute to food security and environmental sustainability.
